

Experience

Internshala | Gurgaon

Software Engineer II

Jul 2023 - Present

- Spearheaded the development of critical features and enhancements for Internshala's platform - **recruitment product**, contributing to improved user experience and functionality.
- Currently oversee the design, development, and management of critical modules, including **international user onboarding, internship/job postings, billing page, and the admin tool**.
- Collaborated closely with cross-functional teams, including product managers and designers
- Demonstrated proficiency in full-stack development, utilizing technologies such as **CodeIgniter framework, MySQL, Doctrine, and JavaScript**.

Software Engineer I

Nov 2021 - Jun 2023

- Facilitated seamless integration of **Leadsquared CRM** with Internshala's recruitment product, streamlining customer interactions and significantly boosting sales. Over the past year, we've effectively managed and nurtured more than **70,000 leads**.
- Enhanced query performance significantly by **optimizing numerous database queries** throughout my tenure at Internshala.
- Actively contributed to **codebase enhancements, optimization initiatives, error resolution**, the implementation of cron jobs, and daily roadmap tasks, ensuring the system's robustness and reliability.
- Crafted responsive, high-speed landing pages for **international and freemium users, including registration and subscription pages**.

Pojo Labs | New Delhi

Software Engineer

May 2021 - Nov 2021

- Led the development and deployment of diverse mobile and web applications, leveraging an extensive technology stack, including Angular, ASP.NET, SQL Server, Xamarin Forms, Node.js, and IIS.
- Took full ownership of end-to-end development processes, executing token-based authentication mechanisms, and consistently delivering clean, optimized codebase.
- Successfully orchestrated integration with prominent social media platforms, such as Facebook and Twitter, enhancing user engagement and interaction across multiple applications.

Software Engineer Intern

Jun 2020 - May 2021

- Engaged in tasks related to system logging, application administration, and creating user interfaces that are both interactive and adaptable to user actions.
- Implemented real-time communication (socket programming) for chat service.
- [CG DIAL 112 CITIZEN APP](#), [CG DIAL 112 SENIOR OFFICER APP](#), [DIAL 112 WEB PORTAL](#)
(Chhattisgarh Police web portal)

Education

Bachelor of Technology - Computer Science

Jun 2017 - Jun 2021

JIMS Engineering Management Technical Campus (GGSIPU)

8.7 CGPA

Skills

Programming:	Java, C#, JavaScript, PHP
